

KSHITIJ KALHAPURE

Third-year Computer Engineering student at MIT ADT University, specializing in AI & Analytics. Skilled in full-stack web development (frontend & backend), Java, SQL, and DSA. Completed multiple projects in software development. Seeking an internship to apply my skills in building data-driven applications.

EDUCATION

- **MIT ADT University, Pune | 2023 – 2027** *(Pune, Maharashtra)*
BTech Computer Engineering (Pursuing)
- **Maharashtra Junior College | 2022** *(Ahmednagar, Maharashtra)*
HSC (Percentage: 79.00)
- **SPMV Rahuri | 2018** *(Rahuri, Maharashtra)*
SSC (Percentage: 94.20)

INTERNSHIP

Java full stack developer Virtual Intern

Eduskills Academy | June-2025

- Gained hands-on experience in HTML, CSS, JavaScript, Java, JDBC, and Spring Boot.
- Integrated MySQL database with Java using JDBC

PROJECTS

NLP POWERED FAKE NEWS DETECTION

Leadership | 5th Semester

- Built an AI system to analyze and classify news as real or fake using NLP and Machine Learning.
- Implemented credibility scoring and real-time alerts to reduce the spread of misinformation.

AI HelpBot for ISRO Portal

Bharatiya Antariksh | Hackathon 2025

- Developed a conversational AI prototype using Python and Flask to serve user queries for the ISRO MOSDAC portal in a national hackathon.
- Leveraged spaCy for NLP to perform intent extraction from user queries against a structured JSON knowledgebase.

AgriWaste management and Marketplace For Farmers

Leadership | 4th Semester

- ProjectClear Vision – Focused on helping farmers sell waste and reduce pollution
- Aligned the team around the mission to bridge the gap between farmers and buyers through technology.

Protect Her

Project Selected For NAAC Exhibition | 3rd Semester

- Develop a mobile application that enhances the safety and security of girls by enabling real-time alerts, location tracking, and emergency support.
- Emergency Contacts List.
- Nearby Police Stations and Hospitals Map Integration.
